November 23, 2010

Dear Lynn,

I wanted to let you know that all of your hard work has continued to make a difference for the students of Placerville Union School District. Our bully intervention programs have really taken hold and your contributions and input were on the ground floor of helping to make this happen. Those students who participated in the Learning for Life Bullying Prevention Club as 4th and 5th graders are now at Edwin Markham Middle School are still going strong and helping to stop bullying around them. They learned how to be empowered to stop bullying around them and how to not be a bully themselves by recognizing the behaviors that constitute bullying.

Yesterday there was an article in the Mountain Democrat Newspaper titled; *School District seeks to defuse bullying*. In the article they referenced the work that was done by Learning for Life at Louisiana Schnell School. Thank you so much for your commitment to our students and giving them the opportunity to build a strong foundation, focus on becoming school leaders, and learning appropriate ways to combat bullying. The videos, PowerPoint presentations, posters and slogans the students created during your sponsored after school program were shown to their peers to help them understand and work together in making a difference today and into the future. They have experience firsthand how the power of working together can change their lives and those of others.

Thank you again for your commitment to the students of Placerville. The children look forward to your next visit!

Best regards,

Nancy Lynch, Ed.D.
Superintendent
